Step & Dome Profiles
available in **300 x 1006**

Made of steel, the KILO Can is a solid alternative to aluminum that offers these features and benefits:

- Pressure relief device
- No pucks for the water bath
- Wider bottom without rounded base
- Heavier base with less top-heaviness
- Unlimited basecoat colors
- Fewer substrate defects
- Applicable for 2P/2Q & several DOT SPs, including SP-10232
- Short run options – 25k MOQ
- 100% recyclable
